Course objectives

01	So, what's the cloud anyway?	Identify what the cloud is and the effect it's had on both technology and business.
02	Start with a solid platform	Learn about the different ways to interact with Google Cloud.
03	Use Google Cloud to build your apps	See how to leverage Google Cloud resources and serverless managed services to build applications.
04	Where do I store this stuff?	Explore how to implement structured and unstructured storage models.
05	There's an API for that!	Learn about the different application-managed service options.
06	You can't secure the cloud, right?	See how security is administered in Google Cloud.
07	It helps to network	Explore how secure networks are built on the cloud.
08	Keeping an eye on things	Identify tools that support cloud automation and management.
09	You have the data, but what are you doing with it?	Discover the managed big data services available in the cloud.
10	Let machines do the work	Get an introduction to machine learning.

Hands on labs

Google Cloud Skills Boost

25 hands-on labs across the course

4 final challenge labs

24 hours of experiential learning

Hosted on Google Cloud Skills Boost

Access to a set of resources, in a clean environment with required permissions, for a fixed amount of time at no additional charge

Credits provided by Google

Access cloud.google.com/edu to apply

How to access Skills Boost

- 01 Open an incognito (private/anonymous) window.
- 02 Go to the Skills Boost URL provided by your instructor.
- 03 Sign in with the credentials used to register for this course.
- 04 Launch the lab.

Labs

Start a lab

1. Click the Start Lab button. Temporary sign in credentials for the lab will be provided.
2. Click the Open Google Cloud console link, which will open in a new window.
3. Copy the username and password provided in the Skills Boost window to complete the credentials on the Google Cloud console window.
4. Accept the terms but do not update recovery details.
5. Agree to the terms of service of the Google Cloud console and continue.

Labs

Start a lab

1. Click the Start Lab button. Temporary sign in credentials for the lab will be provided.
2. Click the Open Google Cloud console link, which will open in a new window.
3. Copy the username and password provided in the Skills Boost window to complete the credentials on the Google Cloud console window.
4. Accept the terms but do not update recovery details.
5. Agree to the terms of service of the Google Cloud console and continue.

End a lab

1. Sign out of the Google Cloud console.
2. Close the tab.
3. Return to the Skills Boost tab and click the End Lab button.
